

Regole generali

1. All'interno del roster non è possibile avere più di 1 starplayer big guy (no Morg'n'Torg e Rippone contemporaneamente).
2. All'interno del roster non è possibile avere più di 1 starplayer per position (no Grif e Deathblow contemporaneamente perché sono entrambi blitzer).
3. Se la position di uno starlayer coincide con quella di un giocatore normale lo sostituisce per quanto riguarda i massimali (non si può avere Jordell e altri 2 wardancer, perché Jordell ne sostituisce uno).
4. All'interno del roster si può avere contemporaneamente un big guy star player e uno normale anche dello stesso tipo (si può avere Morg 'n'Torg e l'Ogre, oppure per gli halfling Radicone e 2 Treeman).
5. Il costo indicato è quello di ingaggio, il costo di mantenimento è pari al valore di SPP moltiplicato per 10k e viene pagato solo se il giocatore è stato schierato in campo.
6. Sotto il nome del team è indicato il massimale di SPP che potete avere nel roster; la somma degli SPP dei giocatori starplayer che avete non può superare tale valore.

7. Il big guy normale occupa 1SPP

8. Qualora uno star player fosse disponibile a più di una squadra soltanto una squadra potrà averlo in roster. Il primo che lo ingaggia pagherà il costo indicato alla lega. Da quel momento in poi un'altra squadra potrà ingaggiare quello stesso star player pagandolo 10k in più del suo ultimo precedente ingaggio; metà arrotondata per difetto di tale pagamento andrà alla lega e l'altra metà al precedente possessore. Qualora per una giornata lo star player non venisse ingaggiato da nessuna squadra, il prezzo di ingaggio tornerà al valore originale che andrà nuovamente pagato alla lega.

Esempio: alla fine della 2 giornata gli umani comprano Morg'n'Torg, pagando 190k alla lega. Nella 3 giornata lo schierano e alla fine della partita pagheranno 30k alla lega. Nella 4 giornata lo schierano di nuovo e pagheranno ancora 30k alla lega. Alla fine della 4 giornata il caos decide di comprare Morg 'n'Torg. Pagherà 100k alla lega e 100k agli umani. Durante la 5 giornata il caos lo schiera e quindi alla fine della partita pagherà 30k alla lega. Alla fine della 5 giornata gli umani decidono di riprendere Morg'n'torg. Pagheranno 100k alla lega e 110k al caos. Nella partita della 6 giornata potranno schierarlo normalmente. Alla fine della 6 giornata gli umani non pagano il mantenimento di 30k quindi Morg 'n 'torg è svincolato. Se nessuno lo compra al suo ingaggio attuale, alla fine della 7 giornata Morg 'n 'torg torna a costare 190k.
